Summary

I am a Computer Science graduate with a strong foundation in software engineering principles. Motivated and detail-oriented Full Stack Developer with internship experience in web application development using Laravel, PHP, JavaScript, and MySQL. Skilled in both backend and frontend development, with additional interest in data analysis using Python and Excel. I am passionate about building efficient, scalable, and user-centric interfaces. With a commitment to continuous learning and a problem-solving mindset, I thrive in dynamic, fast-paced environments and am eager to contribute to innovative projects while further honing my skills.

Education

Independent University, Bangladesh

Bachelor of Science in Computer Science

Bashundhara R/A,
Dhaka-1229

CGPA: 3.15/4.0

January 2020 - March 2025

- Coursework:** Data Structure, Algorithm, Object Oriented Programming, Database Management System, System Analysis, Web Application, Software Engineering, Finite Automata, Numerical Method, Compiler Construction and Human Computer Interaction.

Skills

Front-End Development HTML, CSS, Bootstrap, JavaScript, Responsive Design, UI/UX Awareness

Backend Development PHP, Laravel Framework, RESTful API Development and Integration, Authentication and Role Management

Database MySQL

Data Analysis Python (Pandas, NumPy), Excel (Functions, Charts, Pivot Tables), Data Cleaning and Visualization (basic)

Programming Languages Python, C++, php, JavaScript.

Software Tools Github, VsCode, Colab, Code Blocks, Android Studio, Figma, OverLeaf, Packet Tracer, Netbeans, Scene Builder.

Office and Productivity Microsoft Word, Google Docs, Microsoft Excel, Google Sheets, Microsoft PowerPoint, Canva, Lucidchart, Draw.io

Soft Skills Communication, Leadership, Problem-Solving, TeamWork, Time Management, Adaptability, Critical Thinking.

Projects

E-commerce Website

- Tech Stack: Laravel, PHP, JavaScript, MySQL, Bootstrap
- Developed a full-featured e-commerce platform with product listing, shopping cart, order management, and user authentication. Built both frontend and backend, implemented a custom admin panel for product, user, and order management. Integrated secure login system, payment method simulation, and product filtering by category.
- <https://github.com/omerlatifi/Laravel-E-Commerce-Site>

News Portal Website

- Tech Stack: Laravel, JavaScript, MySQL, HTML/CSS
- Designed and developed a bilingual news portal supporting both Bangla and English content. Built a custom CMS for managing news articles, categories, and publishing schedules. Enabled user engagement through commenting features and implemented role-based access for editors and admins.
- <https://github.com/omerlatifi/Newsportal-Management-System> 

Agency Website

- Tech Stack: Laravel, PHP, JavaScript, MySQL, Bootstrap
- Developed a professional agency website showcasing services and portfolio. Built responsive frontend, implemented contact forms, integrated portfolio management, and ensured smooth UX/UI across devices.
- https://github.com/omerlatifi/Agency_website_Laravel 

Experience

Full Stack Developer

ResNova Tech Limited

- Contributed to web application development using **Laravel, PHP, MySQL, JavaScript, and Bootstrap**.
- Implemented **backend logic, RESTful APIs**, and frontend UI components.
- Collaborated in an **Agile team**, participating in standups, sprint planning, and code reviews.
- Delivered features that improved application efficiency and user experience.

Achievements, Seminars And Workshops

Tech Fest

Independent
University, Bangladesh

- Autumn 2023, System Analysis And Design Showcase.
- Summer 2022, Digital Logic Design Showcase.
- Tech Fest, SETS Fest
